**Sheena Lakhota**  
OWNER

Sheena Lakhota began Living Lean three years ago in an effort to help students in her spin class reach their fitness goals. Despite their efforts to eat healthy and exercise intensely, their bodies plateaued. Sheena developed a program which transformed her students' bodies in six weeks with weekly bodyfat testing, nutritional consultation, and customized workouts. Friends told friends and Living Lean was born. Today Living Lean has studios in Orinda, Oakland, and soon, in Danville.
